☐

1. On 3 October 1953, the Artillerie Kaserne, Kuestrin, was occupied as previously by about 1,000 troops wearing red-bordered black epaulets. Between 22 September and 3 October, 16 x 85-mm AA guns, 4 Puaso-3 ballistic directors, 1 radar set with parabolic reflector, and 18 x 25-mm AA guns were seen in the barracks area, and troops daily received instruction on 25-mm AA guns and 85-mm AA guns. On 24 September, a column of 4 x 37-mm AA guns, 1 Puaso-3 ballistic director and 3 trucks, each occupied by 25 troops, was seen going to, and returning from, the direction of Bleyen.

☐ Comment. The information does not indicate any changes in the occupation of the Artillerie Kaserne with light and a medium AAA regiment of the 32d AAA Div (US) over a report of mid-September by the same source.

25X1A

☐ The light AA guns are, however, rather safely believed to have been 37-mm guns.

25X1A

☐ Comment. ☐ 25X1B confirms the 25th Gds Mecz Regt of the 7th Gds Mecz Div from Frankfurt/Oder until 27 September 1953. The presence in Kuestrin of soldiers of this division is accounted for by the occupation of border control points there by the division.
